

Pregnant Women Invited to Participate in Research Study

The University of Iowa Department of Pediatric Dentistry is inviting YOU and your future baby to participate in a research study. The purpose of the study is to prevent a serious dental disease called early childhood caries that can occur in very young children. The study will begin during your pregnancy and will follow your baby through age 3.

Participants must:

- Be 18 years or older
- Be a pregnant WIC client between 12 and 36 weeks gestation
- Plan on living in Iowa over the next 4 years
- Be able to speak, understand & read English

If you participate in the study:

- You will be paid for your time
- Your child will receive free dental screenings at ages 1, 2, and 3
- You will learn ways to improve both yours and your child's oral health
